

# Getting started with RoboSource training course

## Course objective

*Getting started with RoboSource* training teaches how to use RoboSource to manage and collaborate on RoboHelp projects in a multi-author environment.

The course covers installing and configuring a RoboSource database.

## General information

- ▶ As an Adobe Authorised Training Centre (AATC), Armada meets the demanding standards specified by Adobe, ensuring a high standard of training.
- ▶ Hands-on exercises familiarise delegates with the concepts and operations.

## Who should attend?

Those who use Adobe RoboHelp in a technical authoring environment where multiple authors work on the same project.

## Duration

One day.

## Courseware and certification

Delegates receive courseware to refer to throughout the course, and use as a refresher following the course. Delegates are issued with a certificate confirming they have attended and successfully completed the course.

## Which versions of RoboHelp and RoboSource are covered?

*Getting started with RoboSource* training courses are based on RoboHelp 8 and RoboSource Control 3.1.

For pricing and further information, please see: [www.armadaonline.co.uk/courserobohelp.htm](http://www.armadaonline.co.uk/courserobohelp.htm).
