

Adobe InDesign CS3 - new features

Introduction

The *Adobe InDesign CS3 – New Features* workshop introduces you to the wealth of new features available for use within Adobe InDesign CS3.

General information

- ▶ As an Adobe Authorised Training Centre (AATC), Armada meets the demanding standards specified by Adobe, ensuring a high standard of training.
- ▶ The trainer for this course is an Adobe Certified Instructor (ACI) for InDesign.
- ▶ Hands-on exercises familiarise delegates with the concepts and operations.

Who should attend?

Adobe InDesign CS3 – New Features training is aimed at existing users of Adobe InDesign.

Duration

One day.

Courseware and certification

Delegates receive comprehensive Adobe courseware to refer to throughout the course, and to use as a refresher following the course. Delegates are issued with a certificate confirming they have attended and successfully completed the course.

What version of InDesign is covered?

Adobe InDesign CS3 – New Features training is available for InDesign version CS3.

Further information and cost

Adobe InDesign CS3 – New Features training is run *on-demand*, meaning that the course can be run on a date and at a location that suits you, which may be our training centre in Bromsgrove (close to Birmingham and the M5/M6/M40/M42 motorway network) or your venue.

For further details and cost, please see: www.armadaonline.co.uk/courseindesign.htm.

Course outline

- ▶ **Part 1: Creative effects and controls**
Design compelling page layouts that include transparency, creative effects, and gradient feathers. Since effects are live and nondestructive, you can experiment with ease. Apply new visual effects, such as inner glow, or bevel and emboss, using an interface that's consistent with Adobe® Photoshop® to specify, offset, angle and other options. Apply effects independently to an object's stroke, fill and content.
- ▶ **Part 2: Productivity Enhancements**
Perform a variety of tasks more effectively using new and enhanced productivity features, including Multi-file Place, Quick Apply, faster frame fitting, visual pages panel, and Find/Change (updated).
- ▶ **Part 3: Table and Cell Styling**
Create richly formatted tables by importing tab-delimited text files and styles Microsoft Word or Excel tables, or build tables in InDesign. Apply a wide variety of formatting options manually and save tables and cells as styles..
- ▶ **Part 4: Long-document support**
Maintain consistency and streamline the production of long documents using advanced bullets and numbering, running headers and footers, variables and synchronized master pages.
- ▶ **Part 5: Smart text handling**
Control your text with intelligent text-handling features including the ability to import styles text from Microsoft Word files, apply complex text wraps around objects, and comprehensively replace fonts.
